

DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU

LRBb0986/P1dn
EVM:wlj:rs

June 11, 2009

ATTN: Vince Williams

This draft does not decrease each of the appropriations you identified in your request. Where appropriate, however, I have eliminated dedicated appropriations for programs that have been completely eliminated. To treat each of the other appropriations you identified, I would need more specific numbers. The programs you identified for elimination have been removed in this draft. The moneys appropriated to these programs may, therefore, be unexpended and lapse into their parent fund.
